Plisse & Duette® Shades model BB 20

Installation between glass holders (tightly to the glass)

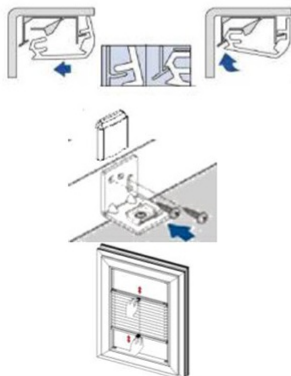

Install the mounting plates to the upper glass holder with screws.

Attach the upper profile of the blinds to the mounting plates.

Install the fixators on the upper glass holder with screws. Place the caps of the fixators after regulating the tightening of the cord.

Installation with overlapping the joinery

- can be executed with metal or PVC brackets which can be viewed in the extras

Install the metal brackets to the upper glass holder with screws. Install the mounting plates and attach the upper profile.

Install the metal brackets on the bottom glass holders with screws. Install the fixators to the metal brackets with screws. Place the decorative caps of the metal brackets. Place the caps of the fixators after regulating the tightening of the cord.

Use the handle to control the blinds in both directions.
